Hong Kong is a magical and modern city built from the ancient civilization of China 5000 years ago. Cradling a cocktail of cultures, Chinese heritage, and British colonial history, Hong Kong will take your breath away. The skyline of Hong Kong represents its opportunities. It exudes an aura of success that attracts and intimidates in equal measure. Lining both sides of the Victoria Harbor are some of the world’s most renowned financial institutions and investment banks. Nestling side-by-side are skyscrapers where the headquarters of many of the most profitable Chinese companies now sit. A city that never sleeps – Hong Kong is a shimmering playground for Wall Street power-players, commercial tycoons and fashion trendsetters.

Cosmopolitan is the synonym for Hong Kong. A stroll through the city can be likened to an express train journey through time. 500 year-old village walls represent the Hakka community heritage while Georgian and Edwardian architectures serve as a reminder of Hong Kong’s colonial past. You will never forget striking landmarks like Cheung Po Tsai Cave – the famous hiding place for a notorious 19th century pirate – and The Peak, a place which will render you speechless by the magnificent views below.

The evening scent of incense sticks lit by the millions of households still practicing Buddhist traditions, laced with the aroma of delicious cuisine wafting from restaurants serving food from all around the world, will guarantee to leave a lasting imprint on all of your senses, reminding you forever of this enchanting city - the gleaming, bustling pearl of Asia.

“I would do it a million times over, it was an amazing experience. Gracias! I did my internship in the Government Department of Social Welfare and Community Development and I cannot begin to express how incredibly fortunate I feel to have had this experience. My experience with The Intern Group is one I wouldn’t change for anything and one I’d recommend to everyone.”

Dannah Maria Jaffar, University of Sydney.

“My expectations were thoroughly surpassed. I had a great time interning with FIFA and it was fun working with the local people. The extracurricular/social part was far beyond what I ever expected. Being able to explore the city so thoroughly and having so many things to do every night was such a treat. 10/10.”

Tiffany Agard, Harvard University.

“You learn what you can’t really learn back in the classroom, back in the States, UK etc. I was placed in sales and trading, in the brokerage department so I undertook a lot of meaningful tasks in the front office. I can assure anyone doing these internships, you will be given really good tasks. All in all its been absolutely fantastic and I’m just grateful to have learned so much. Thank you very much. If you are considering doing this program, you won’t regret it. It’s absolutely fantastic, go for it!”
